

INSTALLATION GUIDELINES and GENERAL INFORMATION:

1. See the specific system wiring diagram for the balance of the wiring connections required.
2. All low voltage wiring is #18 AWG, unless otherwise noted.
3. Observe all local and national electrical and building codes.
4. Each system is wired independently and uses an independent 24VDC power supply.
5. Wire colors shown are the pigtail wires on the back of the SF117/2A pull cord station(s) and SF154A Push Stations.
