

**INSTALLATION GUIDELINES and GENERAL INFORMATION:**

1. All low voltage wiring is #22 AWG, unless otherwise noted.
2. Observe all local and national electrical and building codes.
3. All terminals connections shown may not be in the order that they appear on the equipment.
4. This diagram does not show all of the possible configurations possible for the CM800 system. This is a simplified diagram showing in more detail the most popular system configuration and components. For the complete system installation manual and additional wiring diagrams, please see installation manual #IL514.
5. Optional wiring and components are shown in dotted lines.
